SPECIAL SIZING REQUIREMENTS

If using a Safety Pilot Kit, please allow an additional **3"** on each side of the log set for a total of **6"** additional space.

If using a Remote Control System, please allow an additional **6"** on each side of the log set for a total of **12"** additional space.

This additional space may be required to center your gas log set in the fireplace.

For specifics, check with Okaloosa Gas. This document also available at wwww.okaloosagas.com
